Size	82.5mm x 15mm (L x D)			

 The above data tested in WUBEN laboratory, may fluctuate due to a variation in the testing instruments.

Maintenance

- O ring may lose its effectiveness over time and need to be replaced with the spare O ring to ensure the flashlights water resistance.
- We recommend only a WUBEN brand battery.
- Charge or replace the battery when the power is low.
- Clean the battery contact points with alcohol and wipe clean as necessary.
- When not in use we recommend removing the battery for safe storage.

- Store the flashlight only in a well ventilated and dry place.

Troubleshooting

Problem	Reason	Solution
Abnormal flashing or no bright	Check whether the switch is opened properly	Open the switch
	Checked whether the assembly is in the right place	Tighten the assembly parts
	Check whether the battery is charged	Charger the battery
	Check whether the battery is anti-loading	Remove the battery re-assembly
	Check if the battery contact points are dirty	Use alcohol to clean
Noise	Check whether there is a foreign body fall	Pour foreign body
	Parts damage	Return to the local dealer
